Additional Comments: This nomination provides anadromous waters information for all study sites located on AWC stream # 247-60-10220-2027-3014. Stations included in this nomination beginning with the upstream most station are 00014, 00002, 00001 and 00015. The information herein provides backup information for the presence of CO and Sr in the previously mentioned AWC stream. Individual station nomination comments are included in the following pages. The information used to generate this nomination was provided to the Alaska Department of Fish and Game as a stipulation of fish resource permit # SF2008-109.
