OBSERVATION INFORMATION

Species	Date(s) Observed	Spawning	Rearing	Present	Anadromous
chinook salmon	06/24/2009		✓		
coho salmon	06/24/2009		✓		

IMPORTANT: Provide all supporting documentation that this water body is important for the spawning, rearing or migration of anadromous fish, including: number of fish and life stages observed; sampling methods, sampling duration and area sampled; copies of field notes; etc. Attach a copy of a map showing location of mouth and observed upper extent of each species, as well as other information such as: specific stream reaches observed as spawning or rearing habitat; locations, types, and heights of any barriers; etc.

Comments:
 Site 6A Substantiated Chinook salmon rearing
 2 juvenile coho
 6 juvenile Chinook
 Minnow trap
 Coordinates (Lat,Long): (61.51469,-145.51607)
ident #8

Attachments: FRP data submission form 3.2.xls; 2009Waypoints.zip

J-

I've submitted all the nominations from our 2009 field work.

Attached is the FRP spreadsheet from 2009, as well as the sampling point shapefile (with better Site labels). Site name is referenced in each nomination.

Capture methods:

Salmon fry were collected over a two-week period in summer 2009 at each segment using beach seines and minnow traps. The seine net had a mesh size of $\frac{1}{4}$ inch, and was small enough to be handled by two people. At least one seine effort was made per segment, with up to three efforts if the catch size was minimal. Eight minnow traps baited with treated salmon roe were placed at each segment and allowed to soak for at least one hour. Captured fish were counted and identified to species, and up to 100 salmon fry per segment were weighed and measured. After measuring, captured fish were released.

Please let me know if you have any questions, or if you have any suggestions before I submit the nominations from our 2010 sampling.

Allison

Were you working in coordination/cooperation w/Wild Salmon Center (Tom Miewald)?

Thanks for the clarification. Attached are two zip files of our waypoints from 2009 and 2010. Not all of these points would be nominated, but at least you can see where we've been.
