 Address: 333 Raspberry Road
Anchorage AK 99518

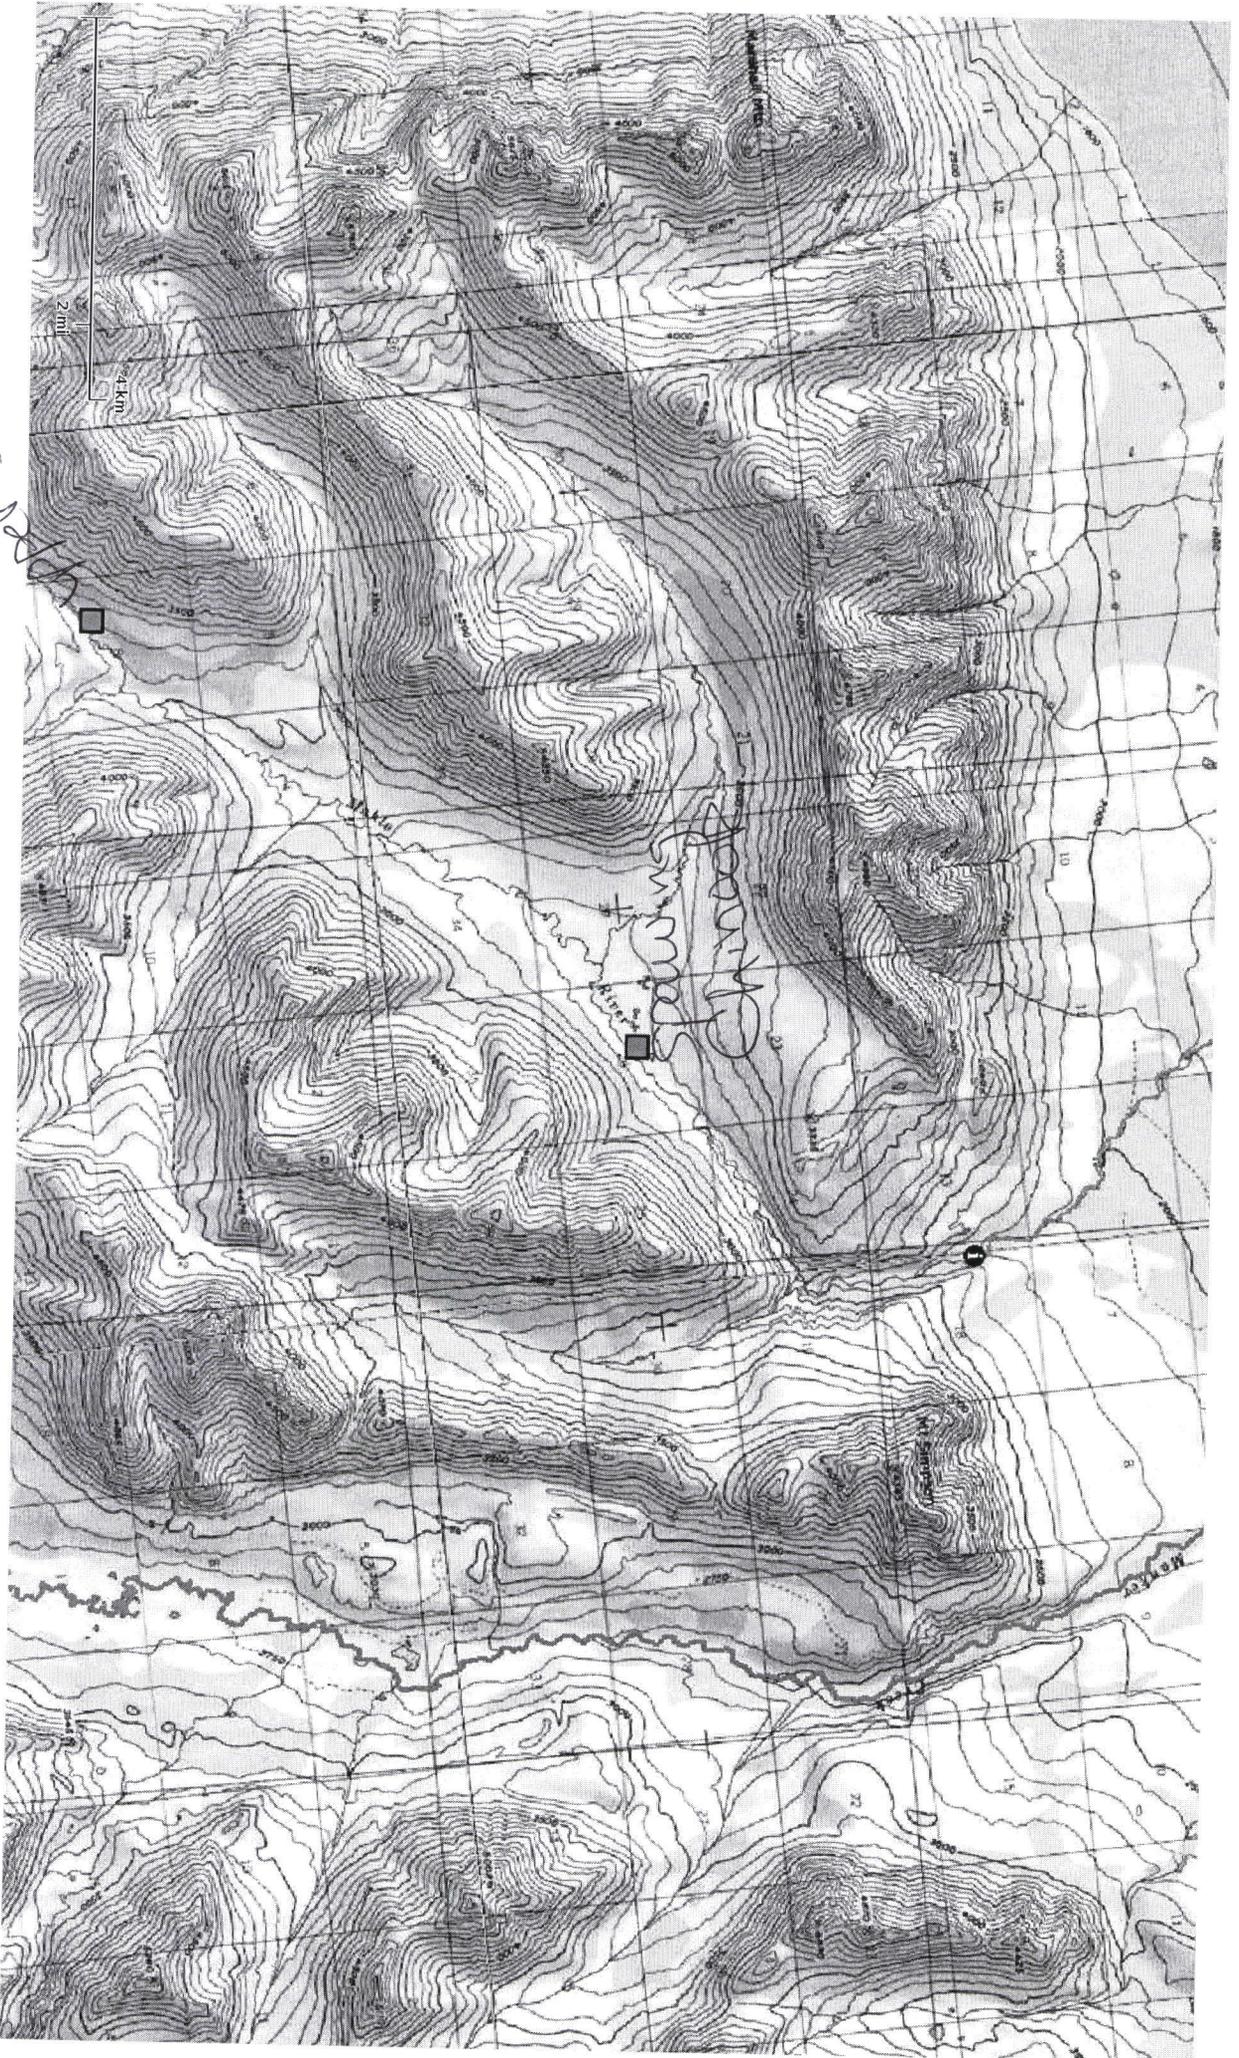

This certifies that in my best professional judgment and belief the above information is evidence that this waterbody should be included in or deleted from the Anadromous Waters Catalog.

Signature of Area Biologist: _____ Date: _____ Revision 05/08
 Name of Area Biologist (please print): _____

On the 26th of July we left the Chitna airstrip in the R-44 at 10:00 and headed for Mahlo Creek (N 61.72507 W -145.71783). Markus dropped us off then left to refuel in Glenallen. We thought we would be able to find Chinook mixed in with the Sockeye we spotted from the air but we failed to find any Chinook, so we waited for Markus to return and relocate us further upstream. At 12:00 he returned and we continued the survey approximately 0.5 miles upstream until we stopped at (N 61.62002 W - 145.81800).

Only three Chinook were spotted in the creek so we headed back to (N 61.66695 W -145.72238) where we sampled 2.

Map Survey
