Hi J,

Regarding 12-175, I just talked with Mr. Moffitt, who recalls that he observed 15 adult pink salmon and 20-30 adult sockeye at that coordinate during his assault on Queen's Chair. He said that he is comfortable with submitting August 5th as the date of the observation but could double check his photos if you need. Let me know.

I'm working on 12-103 and 12-104.

Take care,
Rich

Can you two answer for these streams:
12-103 This was a stream addition since the mouth wasn't near 2026. If it is stream 2026 this is up to you.
12-104-rich your thoughts?
175- this creek was steve's nomination I don't know where to get this information....
