					<input type="checkbox"/>
					<input type="checkbox"/>
					<input type="checkbox"/>

**IMPORTANT:** Provide all supporting documentation that this water body is important for the spawning, rearing or migration of anadromous fish, including: number of fish and life stages observed; sampling methods, sampling duration and area sampled; copies of field notes; etc. Attach a copy of a map showing location of mouth and observed upper extent of each species, as well as other information such as: specific stream reaches observed as spawning or rearing habitat; locations, types, and heights of any barriers; etc.

Comments: Included:  
WGS coordinates of creek track, waypoint of fry collection site, fry photos, and observation notes.  
Add new stream ≤ 660ft in length w/sockeye salmon rearing

*spawning upstream?*

## Shrode Cabin Creek

The creek was a series of stepping down pools of water. Coordinates show the path of the creek but it did continue farther with a large feeder pool. There were fry farther up the creek but the area was hard to walk in due to marshy conditions. The creek was between the USFS cabin and the USFS shed. There were four fry caught but the same species of fry continued up the creek living in small pools.

### Waypoints:

Fry collection site:

WAYPOINT,Caughtfry,60.65696354,-148.3115839

Creek waypoints:

WAYPOINT,Fryck,60.65701735,-148.31125516

WAYPOINT,Frycreek,60.65713705,-148.31116715

Creek Mouth:

WAYPOINT,Frymouth,60.65694141,-148.31179311

add new stream 224-30-14760-2201  
w/sockeye salmon rearing, use arc2014 for hydro,  
BDL imagery
