2004

**IMPORTANT:** Provide all supporting documentation that this water body is important for the spawning, rearing or migration of anadromous fish, including: number of fish and life stages observed; sampling methods, sampling duration and area sampled; copies of field notes; etc. Attach a copy of a map showing location of mouth and observed upper extent of each species, as well as other information such as: specific stream reaches observed as spawning or rearing habitat; locations, types, and heights of any barriers; etc.

add Chum salmon spawning and coho

**Comments:** Salmon present, change pink salmon present to spawning in  
 On September 23, 2009, aerial observations were by Jen Bell. She observed 25 coho in the stream. (New) 227-10-17056  
 On September 5, 2009, aerial observations were by Jen Bell. She observed 4600 pink salmon in the stream.  
 August 19, 2009 aerial observations were conducted by Jeremy Botz. He observed 160 chums in the mouth of the stream and 700 in the stream.  
 Clam Beach Creek has been an aerial surveyed stream since the 1960's.  
All observations were of adult salmon -  
 Due to surveys being aerial there are no GPS coordinates paired with these observations.
