IMPORTANT: Provide all supporting documentation that this water body is important for the spawning, rearing or migration of anadromous fish, including: number of fish and life stages observed; sampling methods, sampling duration and area sampled; copies of field notes; etc. Attach a copy of a map showing location of mouth and observed upper extent of each species, as well as other information such as: specific stream reaches observed as spawning or rearing habitat; locations, types, and heights of any barriers; etc.

Comments:

These coho salmon were observed and photographed by Danny Rosenkrans, retired geologist and land manager at Wrangell-St. Elias National Park and Preserve. He will be out of the country for 2-3 years.
Coordinates (Lat,Long): (61.53870,-144.0573667)

add coho salmon present to 212-20-10080-2300-3041
add extend & add coho salmon present spawning to 212-20-10080-2300-3041-4021

Name of Observer (please print): molly mccormick
