					<input type="checkbox"/>
					<input type="checkbox"/>
					<input type="checkbox"/>

IMPORTANT: Provide all supporting documentation that this water body is important for the spawning, rearing or migration of anadromous fish, including: number of fish and life stages observed; sampling methods, sampling duration and area sampled; copies of field notes; etc. Attach a copy of a map showing location of mouth and observed upper extent of each species, as well as other information such as: specific stream reaches observed as spawning or rearing habitat; locations, types, and heights of any barriers; etc.

Comments

I used a GPS to locate an unnamed tributary to Stream No. 247-60-10272 (Figures 1 and 2). About 15 juvenile coho salmon were captured with a minnow trap below a beaver dam (IDENT 053). The fish were 65-100 mm Fork Length.

Add new creek w/ coho salmon REARING

Name of Observer (please print): Will Frost, Habitat Biologist
Signature: [Signature]
Agency: ADF&G, Division of Habitat
Address: 333 Raspberry Road
Anchorage, AK 99518

Date: ALASKA DEPT. OF FISH & GAME
JUL 02 2015

This certifies that in my best professional judgment and belief the above information is evidence that this waterbody should be included in or deleted from the Anadromous Waters Catalog.
