OBSERVATION INFORMATION

Species	Date(s) Observed	Spawning	Rearing	Present	Anadromous
coho salmon	10/01/2014	✓		✓	✓

IMPORTANT: Provide all supporting documentation that this water body is important for the spawning, rearing or migration of anadromous fish, including: number of fish and life stages observed; sampling methods, sampling duration and area sampled; copies of field notes; etc. Attach a copy of a map showing location of mouth and observed upper extent of each species, as well as other information such as: specific stream reaches observed as spawning or rearing habitat; locations, types, and heights of any barriers; etc.

Comments:
While conducting field work for ADFG Genetics Lab, we flew over Spink Creek and landed after observing two large schools of coho. We landed and captured numerous adult coho that were red, and some were spawning.
Coordinates (Lat,Long): Upper(62.73149,-150.24965) Lower(62.72983,-150.25)

Add coho salmon spawning to creek

Name of Observer (please print): nick fernella

Signature: 146.63.159.163 (Web Nomination) Date: 11/04/2014

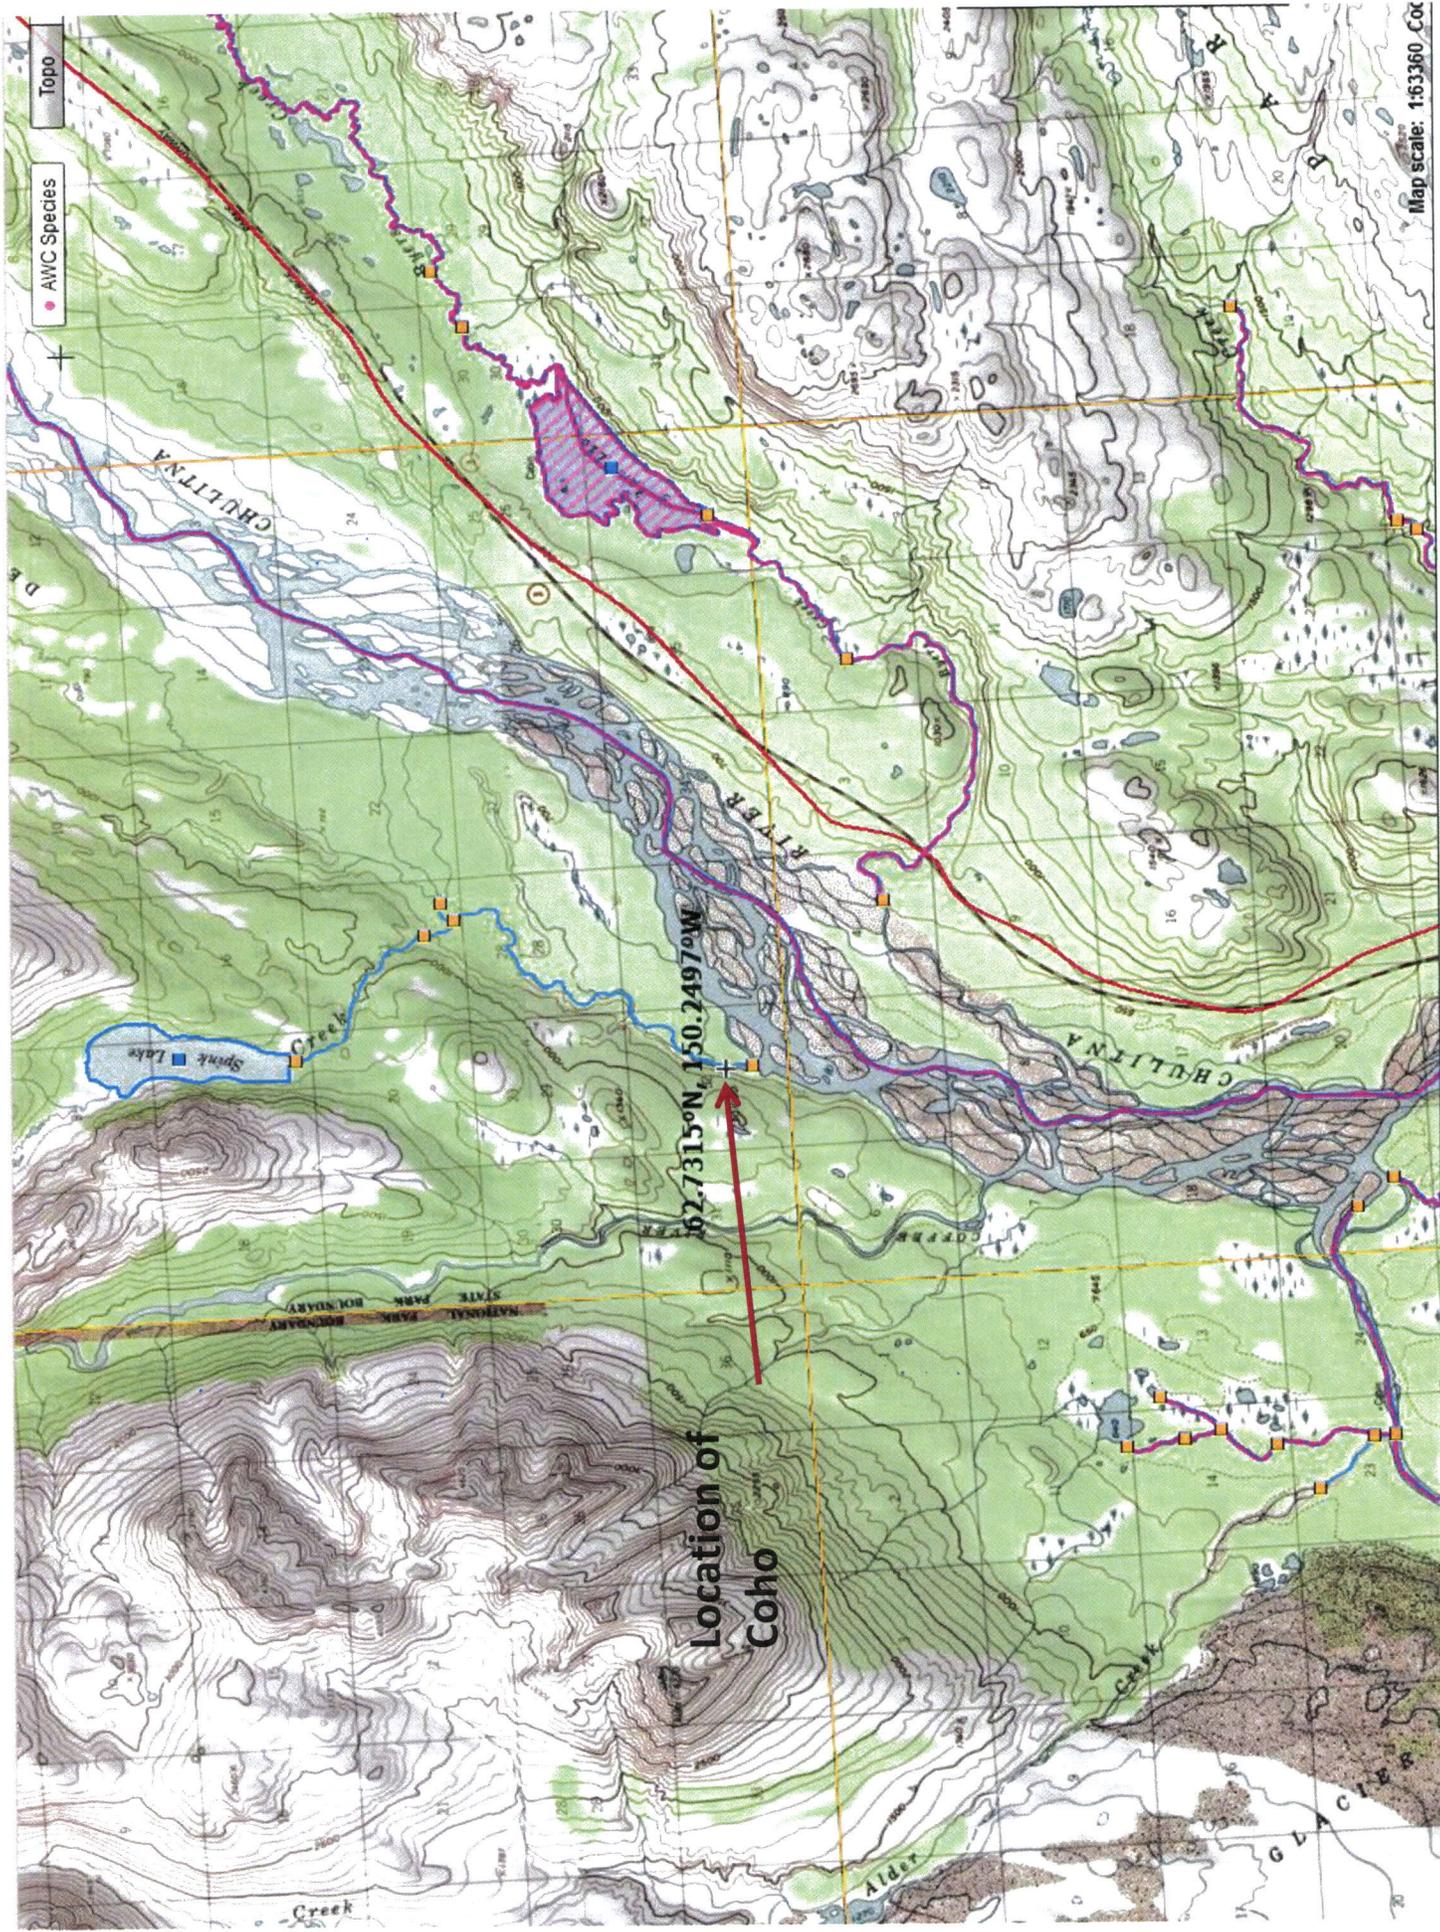

Agency: _____

Address: 13849 schubert circle
anchorage, ak 99516

This certifies that in my best professional judgment and belief the above information is evidence that this waterbody should be included in or deleted from the Anadromous Waters Catalog.
