Species	Date(s) Observed	Spawning	Rearing	Migration
Chinook	1985		✓	
Coho			✓	
Dolly Varden			[redacted]	✓

Comments: Provide any clarifying information, including number of fish observed, location of fish survey data, etc.

Chinook and Coho salmon trapped in pond via minnow trap. Adult Dolly Varden observed in stream outlet approx. 100 ft from outlet. Chinook + Coho juveniles identified by Kent Roth. There were reports of anadromous salmonids being captured (juvenile) upstream from the pond

Note: there is a memo from Chris Bowden to Len Vining verifying the above juvenile info.

Attach a copy of a map showing location of mouth and upper points of each species, specific stream reaches identified for spawning or rearing, locations of barriers, such as falls. Attach a copy of the fish survey data, if available.

Name of Observer (please print) Leonard Vining

Date: Dec. 6/87 Signature: Leonard J. Vining

Address: 8021 Sabrina St.
Anchorage, AK 99507

Signature of Area Biologist: _____
