Nomination # _____	
<u>[Signature]</u> Regional Supervisor	<u>11/14/87</u> Date
<u>SBS</u>	<u>11/20/87</u>
<u>FI</u> Drafted	<u>11/18/87</u> Date

Species	Date(s) Observed	Spawning	Rearing	Migration
Coho	7/13/87	X	X	

Comments: Provide any clarifying information, including number of fish observed, location of fish survey data, etc.

Coho juveniles were caught using baited minnow traps both above and below the Glenn Hwy culvert. Since young coho's cannot migrate into the culvert because it is perched, adults must be spawning above culvert. Lake is inaccessible because of dam at outlet.

Attach a copy of a map showing location of mouth and upper points of each species, specific stream reaches identified for spawning or rearing, locations of barriers, such as falls. Attach a copy of the fish survey data, if available.

Name of Observer (please print) Stewart Seaberg
 Date: 7/13/87 Signature: [Signature]
 Address: ADF&G/Habitat Div.
333 Raspberry Rd Anchorage AK 99508-1599
