OBSERVATION INFORMATION

Species	Date(s) Observed	Spawning	Rearing	Migration	Anadromous
King Salmon	8/28/92		✓ observed several fish		✓ sampled 5 fish 53-64mm
Coho Salmon	8/28/92		✓ observed a few fish		✓ sampled one juvenile 54mm
Grayling	8/28/92			✓ sampled one fish @ 131mm	
Sculpin	8/28/92			✓ observed several	

Provide any clarifying information, including number of fish observed, location of fish survey data, etc. Attach a copy of the fish survey data, if available. Attach a copy of a map showing location of mouth and upper points of each species, specific stream reaches identified for spawning or rearing, locations of barriers, such as falls.

Comments: Site 4-A-1

We returned to gravel bar at Tickel River mouth to update anadromous fish situation. In addition to Coho we also (after shocking approx 100' of head of a gravel bar) discovered juvenile King Salmon rearing in gravel at edge of bar in turbid but slow water. The Gravel Bar was located approx 1/2 mile from River Mouth.
