Nomination # <u>95 089</u>	Regional Supervisor	Date
Revision Year: _____	<u>Ed Weir</u>	<u>12/13/94</u>
Revision to: Atlas <input checked="" type="checkbox"/> Catalog _____	<u>Z. Arone</u>	<u>12/29/94</u>
Both _____	Drafted	Date
Revision Code: <u>A-1</u>		

OBSERVATION INFORMATION

Species	Date(s) Observed	Spawning	Rearing	Migration	Anadromous
coho salmon	10-13-94	X	X		
<u>(Oncorhynchus kisutch)</u>	<u>&gt; 200 adult spawners; 75% carcass</u>				

**IMPORTANT:** Provide all supporting documentation that this water body is important for the spawning, rearing or migration of anadromous fish, including: number of fish and life stages observed; sampling methods, sampling duration and area sampled; copies of field notes; etc. Attach a copy of a map showing location of mouth and observed upper extent of each species, as well as any other information such as: specific stream reaches observed as spawning or rearing habitat; locations, types, and heights of any barriers; etc.

Comments: The subject stream is groundwater fed and appears to have been man-made (stream diversion). The stream is 10'-20' in width and contains excellent spawning substrate, and has heavy vegetation cover along the banks. This stream has been documented for pink and chum salmon. Coho salmon spawning and rearing should be added to the catalog.

Name of Observer (please print) Dennis G. Gnath
