IMPORTANT: Provide all supporting documentation that this water body is important for the spawning, rearing or migration of anadromous fish, including: number of fish and life stages observed; sampling methods, sampling duration and area sampled; copies of field notes; etc. Attach a copy of a map showing location of mouth and observed upper extent of each species, as well as any other information such as: specific stream reaches observed as spawning or rearing habitat; locations, types, and heights of any barriers; etc.

Comments: Mouth point located in T20N R5E section 36.
Observed while on a sheep hunt

Upper points document limits of fish-surveys and usually not the extent of fish habitat.

Mapped, edited, and published by the Geological Survey
Control by USGS and USC&GS
Topography by photogrammetric methods from aerial photographs taken 1948, field annotated 1948. Map not field checked
Universal Transverse Mercator projection, 1927 North American datum
10,000-foot grid based on Alaska coordinate system, zone 4
1000-meter Universal Transverse Mercator grid ticks, zone 6, shown in blue
Land lines printed in gray represent unsurveyed and unmarked locations predetermined by the Bureau of Land Management. Folio S-1, Seward Meridian
Dashed red land lines indicate approximate locations of existing ground surveys

CONTOUR INTERVAL
