OBSERVATION INFORMATION

| Species     | Date(s) Observed   | Spawning | Rearing    | Migration  | Anadromous |
|-------------|--------------------|----------|------------|------------|------------|
| COHO SALMON | <u>August 1996</u> |          | <u>50+</u> | <u>30+</u> | yes        |
|             |                    |          |            |            |            |
|             |                    |          |            |            |            |

**IMPORTANT:** Provide all supporting documentation that this water body is important for the spawning, rearing or migration of anadromous fish, including: number of fish and life stages observed; sampling methods, sampling duration and area sampled; copies of field notes; etc. Attach a copy of a map showing location of mouth and observed upper extent of each species, as well as any other information such as: specific stream reaches observed as spawning or rearing habitat; locations, types, and heights of any barriers; etc.

Comments: Mouth point located in T26N R14W section 32.  
Observed on pike sampling trip
