OBSERVATION INFORMATION

Species	Date(s) Observed	Spawning	Rearing	Present	Anadromous
Dolly Varden Char	07/22/97		yes	2 caught	No
Chum Salmon	07/22/97	yes		50 estimated	yes

Comments:

There is a 10 foot barrier falls on this creek approximately 250 feet from salt water then another 15 foot barrier above the first one.

Dolly Varden were caught above the barrier using small fish traps and are a resident. Good habitat is above this site for spawning and rearing.

Chum Salmon were also observed spawning in the stream below the barrier site and attempting to jump the barrier.
