OBSERVATION INFORMATION

Species	Date(s) Observed	Spawning	Rearing	Present	Anadromous
coho	6/8 & 6/25/2002		23	MAR 3 - 2003	<input checked="" type="checkbox"/>
				REGION II	<input type="checkbox"/>
				HABITAT AND RESTORATION	<input type="checkbox"/>
				DIVISION	<input type="checkbox"/>

**Comments:** Location Bering Glacier A-4; Township 21 S., Range 17 E, Section 15, 14, 7 & 12.

Stream surveys were conducted in conjunction with the SSSF crew. Field crews surveyed streams for upper extents of fish habitat. Once upper extents were determined fish were captured using baited minnow traps. Soak times for traps were usually less than 30 minutes per trap/two traps per sample site. Captured fish were identified and released on site. Field teams were comprised of ADF&G personnel.

GPS points were collected at all confluences and upper extents of tributaries. There were a total of 3 tributaries identified. (see arcview shape file for details)

Name of Observer (please print):   Linda Speerstra    
 Signature: Date:   2/6/03    
 Address:   304 Lake St. Rm. 103    
  Sitka, AK 99835  

This certifies that in my best professional judgment and belief the above information is evidence that this waterbody should be included in or deleted from the Catalog of Waters Important for Spawning, Rearing or Migration of Anadromous Fishes per AS 16.05.870.

Signature of Area Biologist: Revision 3/97
