Comments: Location Bering Glacier A-4; Township 21 & 20 S., Range 18 E, Section 31 & 6. All points taken in NAD 27. U of A P-line used as reference throughout surveys. GPS Points taken at P-line where stream crosses and also at upper extents.

Stream surveys were part of the U of A helicopter cruise. Field crews surveyed streams for fish using baited minnow traps. Soak times for traps were usually less than 30 minutes per trap/two traps per sample site. Captured fish were identified and released on site. Field teams were comprised of ADF&G personnel.
