Subject: Alaska Department of Fish and Game

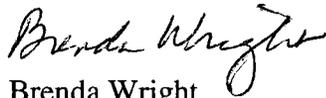

To: J. Johnson

Dear Mr. Johnson:

We started a new project this year to test a new method of monitoring coho juvenile populations. We sampled 22 streams scattered over the Tongass National Forest. Of the 22 streams, we have compiled data to have 13 streams nominated to be included in the ADF&G Fish Distribution Database. I sent the nomination forms to Doug Fleming and Bob Chadwick to sign for seven of the streams.

I am enclosing the six nomination forms and maps covered by Steve McCurdy on Prince of Wales Island. Please let me know if you need any of the information sent electronically. Please let us know if you have any questions or concerns.

Thanks for your help,

Brenda Wright
