Comments: Sad new stream w/ coho salmon rearing
 Lat and Long above are in NAD27. This small tributary flows directly into stream 113-51-10120 and provides good rearing habitat for juveniles. We electrofished for 20 minutes and soaked 2 minnow traps for 4 hours near the old road crossing. Totals were 42 DV (50-85mm) and 3 CO (50-60mm).

Wow, even with a puddle of brains you're still smart.

Don't worry about this until you have time, I just wanted to send it before I left for the day. Thanks again.

What brains I had are a puddle on the floor at this point.

Got your message, w/o the associated shapefiles the project doesn't really provide a great deal, the pdf shows what I got. Let's try this again tomorrow OK?
Maybe if you sent the 2007stream_noms_duffield27 shapefiles, that will do it.

Hi J - my brain hurts and I can't even imagine what yours must feel like... Let me know if you can open this map. I created a shapefile with the 5 streams I'm nominating and there's some bonus info in the attribute table. I had projection issues and used the AWC reg05 arc layer instead of the 2007 version, but you'll probably turn off all the other layers anyway. I'm still submitting the nomination forms online. Good luck.
Kristen
