OBSERVATION INFORMATION

Species	Date(s) Observed	Spawning	Rearing	Present	Anadromous
Dolly Varden	07/14/2007			✓	
cutthroat trout	07/14/2007			✓	
Steelhead trout	07/14/2007			✓	
coho salmon	07/14/2007		✓		✓

**IMPORTANT:** Provide all supporting documentation that this water body is important for the spawning, rearing or migration of anadromous fish, including: number of fish and life stages observed; sampling methods, sampling duration and area sampled; copies of field notes; etc. Attach a copy of a map showing location of mouth and observed upper extent of each species, as well as other information such as: specific stream reaches observed as spawning or rearing habitat; locations, types, and heights of any barriers; etc.

**Comments:** Address stream w/ coho salmon rearing  
 Lat and Long are in NAD27. Flows into stream 113-51-10120 This high flowing stream transports substantial amounts of bedload and has good sidechannel rearing habitat. We electrofished during high flows here for around 40 minutes and caught 3 dolly Varden (35-100mm), 3 cutthroat (30-110mm, lab ID), 1 steelhead trout (60mm, lab ID), and 2 coho (30-35mm).  
 Coordinates (Lat,Long): Upper(57.492152,-135.419867) Lower(57.492078,-135.418644)  
57 29 30.48895      57 29 30  
135 25 17.95118      135 25 13.54825

Wow, even with a puddle of brains you're still smart.

Don't worry about this until you have time, I just wanted to send it before I left for the day. Thanks again.

Kristen << File: Duffield2007\_noms.pdf >>

What brains I had are a puddle on the floor at this point.

Got your message, w/o the associated shapefiles the project doesn't really provide a great deal, the pdf shows what I got. Let's try this again tomorrow OK?  
Maybe if you sent the 2007stream\_noms\_duffield27 shapefiles, that will do it.

Hi J - my brain hurts and I can't even imagine what yours must feel like... Let me know if you can open this map. I created a shapefile with the 5 streams I'm nominating and there's some bonus info in the attribute table. I had projection issues and used the AWC reg05 arc layer instead of the 2007 version, but you'll probably turn off all the other layers anyway. I'm still submitting the nomination forms online. Good luck.
