OBSERVATION INFORMATION

Species	Date(s) Observed	Spawning	Rearing	Present	Anadromous
Pink	7 observation from 1982 to 1994	Yes			<input checked="" type="checkbox"/>
Chum	8/31/1976 & 9/13/1984	Yes			<input checked="" type="checkbox"/>
					<input type="checkbox"/>
					<input type="checkbox"/>
					<input type="checkbox"/>

IMPORTANT: Provide all supporting documentation that this water body is important for the spawning, rearing or migration of anadromous fish, including: number of fish and life stages observed; sampling methods, sampling duration and area sampled; copies of field notes; etc. Attach a copy of a map showing location of mouth and observed upper extent of each species, as well as other information such as: specific stream reaches observed as spawning or rearing habitat; locations, types, and heights of any barriers; etc.

Comments: This system was surveyed 15 times from 1969 to 1994 while conducting aerial and foot surveys of the area. Pink salmon were observed during 7 of those surveys. The dates the pink salmon have been observed range between August 13 and September 13. The numbers of pink salmon observed range between 20 and 2,500. Chum salmon have been observed during 2 of the 15 surveys. Forty chum salmon were observed during an aerial survey on 8/31/1976 and 198 chum salmon were observed during a foot survey on 9/13/1984.

Stream Mouth Location: 56 39.651/-134 17.284
Upper Extent: Unknown

*Add local named RB
Add stream shorter than 660ft 109-52-10030
w/ pink salmon spawning channel as per dated.*

Name of Observer (please print): William Bergmann, Area Management Biologist
 Signature: [Signature] Date: 3/6/08
 Agency: ADFG-CFD
 Address: P.O. Box 667
Peterburg, Alaska 99833

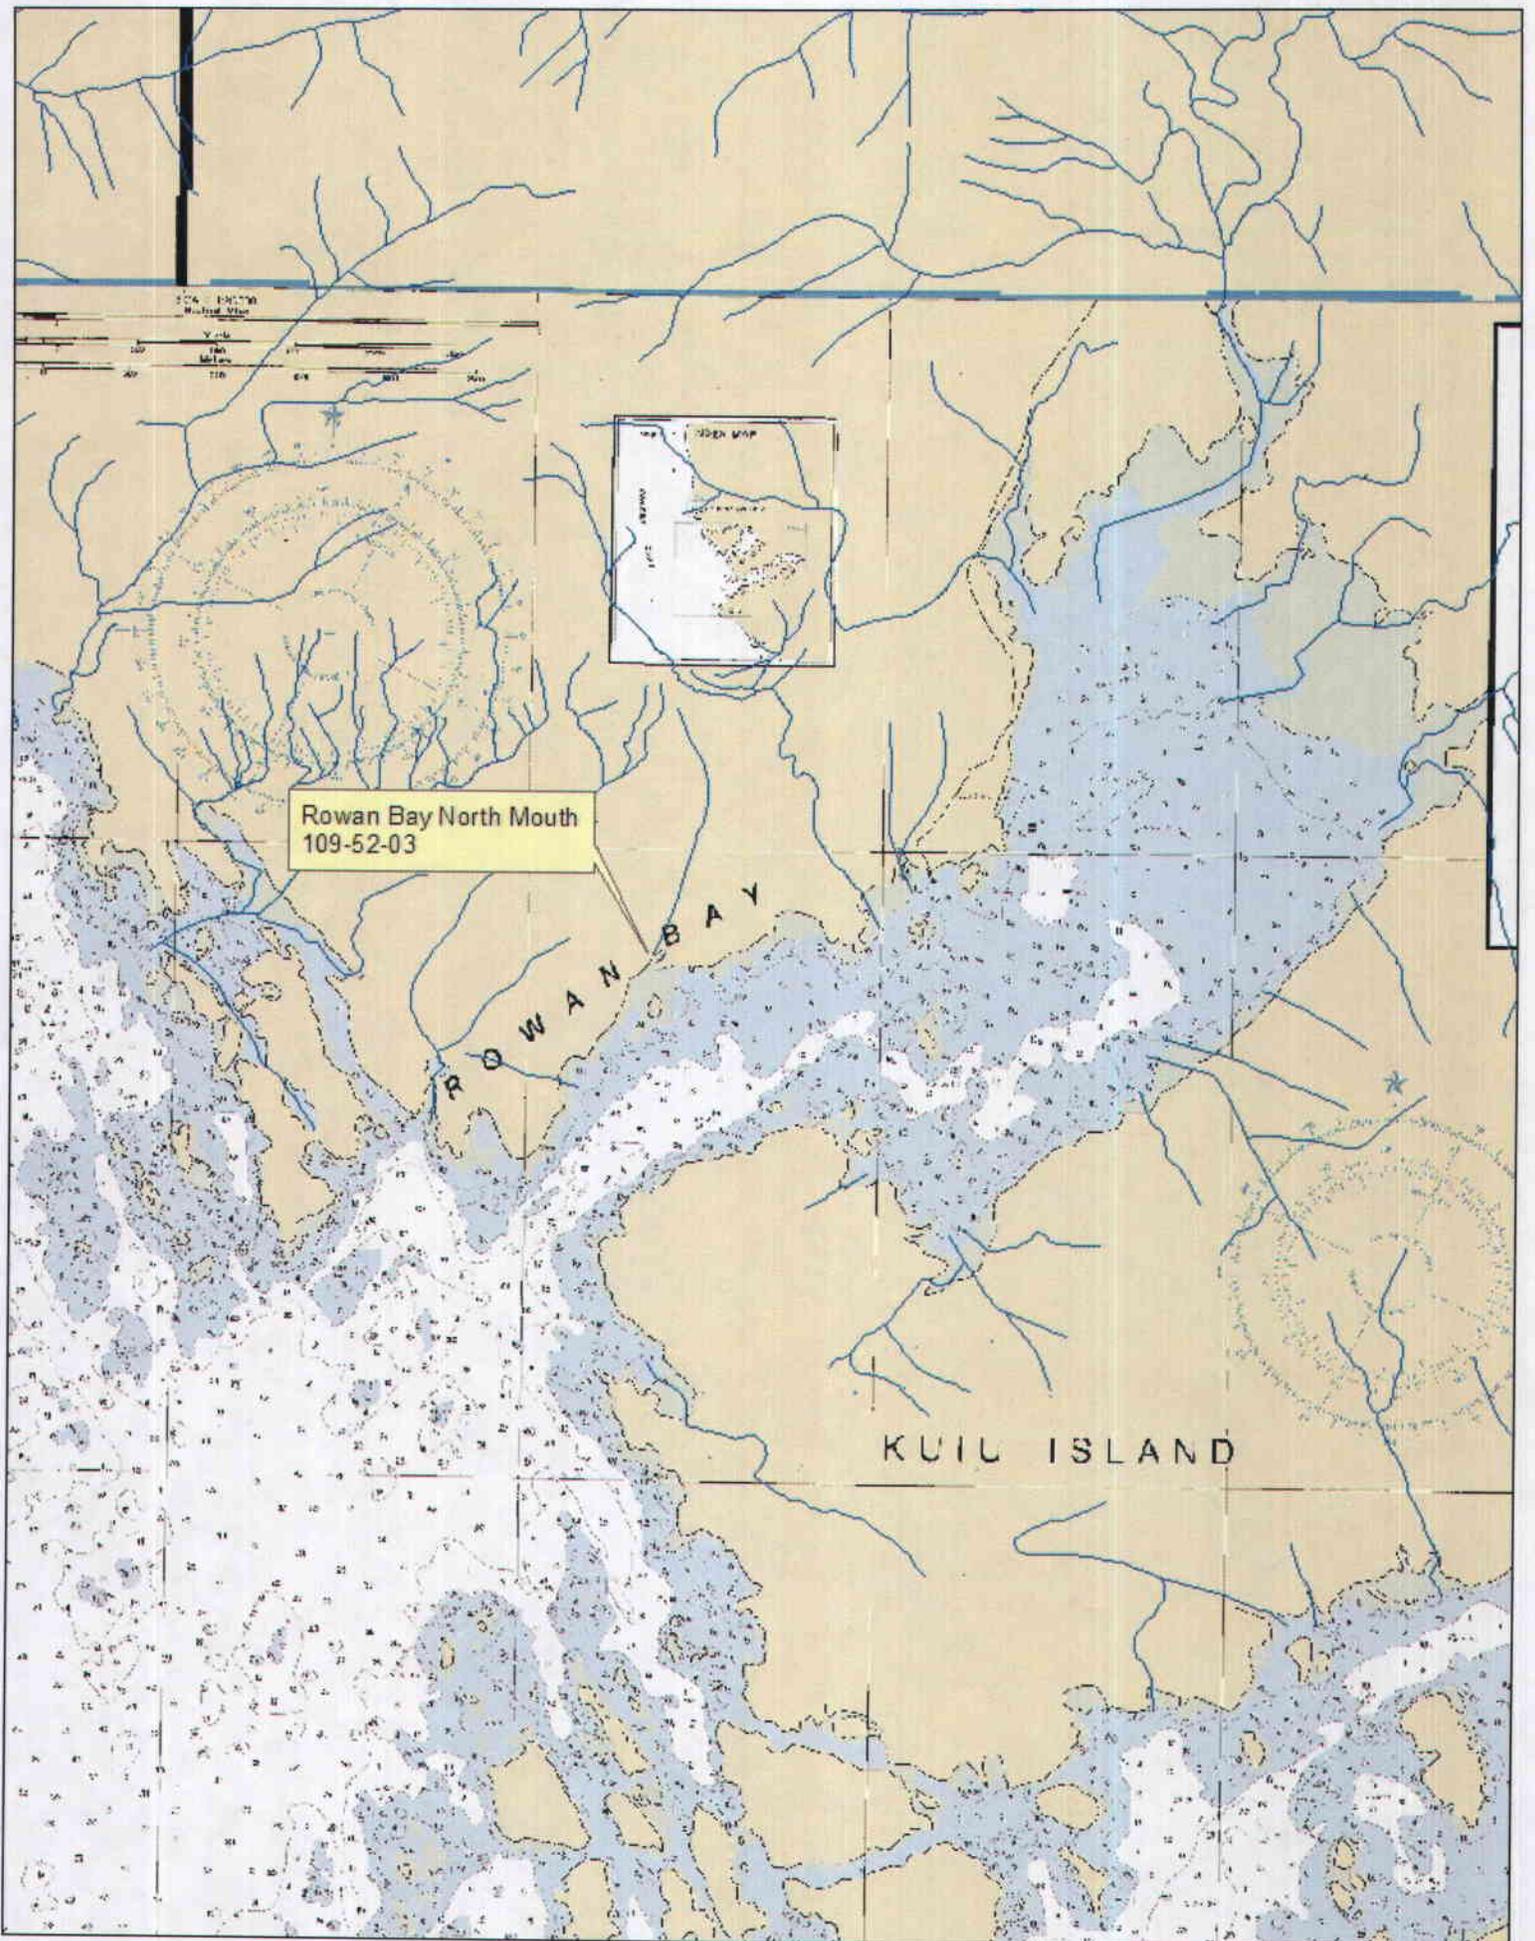

This certifies that in my best professional judgment and belief the above information is evidence that this waterbody should be included in or deleted from the Fish Distribution Database.

Signature of Area Biologist: [Signature] Date: 3/6/08 Revision 02/05
 Name of Area Biologist (please print): William Bergmann
