OBSERVATION INFORMATION

Species	Date(s) Observed	Spawning	Rearing	Present	Anadromous
Pink Salmon	8/10/1977, 8/30/1985, 8/12/1987 & 8/8/1989	Yes			<input checked="" type="checkbox"/>
Chum Salmon	8/10/1993	Yes			<input checked="" type="checkbox"/>
Coho Salmon	11/18/1987	Yes			<input checked="" type="checkbox"/>
					<input type="checkbox"/>
					<input type="checkbox"/>

**IMPORTANT:** Provide all supporting documentation that this water body is important for the spawning, rearing or migration of anadromous fish, including: number of fish and life stages observed; sampling methods, sampling duration and area sampled; copies of field notes; etc. Attach a copy of a map showing location of mouth and observed upper extent of each species, as well as other information such as: specific stream reaches observed as spawning or rearing habitat; locations, types, and heights of any barriers; etc.

**Comments:** This system has been surveyed 10 times from 1977 to 2001 while conducting aerial surveys of the area. Pink salmon have been observed during four of those surveys. Pink salmon counts have ranged from 25 to 200. During the 8/10/1993 survey 75 chum salmon were observed. The system was surveyed twice by helicopter in 1987. The first survey on 10/8/1987 no coho were observed. The second survey on 11/18/1987 270 coho were observed.  
Stream Mouth Location: 56 14.027/-131 30.235  
Upper Extent: Unknown

*Add new stream starting from 660th w/catch and chum  
pink salmon spawning odd usgs name white R.  
to JB*

Name of Observer (please print): William Bergmann, Area Management Biologist  
Signature: [Signature] Date: 3/6/08  
Agency: ADFG-CFD  
Address: P.O. Box 667  
Peterburg, Alaska 99833

This certifies that in my best professional judgment and belief the above information is evidence that this waterbody should be included in or deleted from the Fish Distribution Database.
