For Office Use

Nomination #	<u>09-1017</u>	Fisheries Scientist	Date
Revision Year:	<u>2010</u>	Habitat Operations Manager	Date
Revision to:	Atlas _____ Catalog _____ Both <input checked="" type="checkbox"/>	<u>[Signature]</u>	<u>9/15/09</u>
Revision Code:	<u>B1; B-2</u>	AWC Project Biologist	Date
		<u>[Signature]</u>	<u>12/1/09</u>
		Cartographer	Date

OBSERVATION INFORMATION

Species	Date(s) Observed	Spawning	Rearing	Present	Anadromous
<u>Sockeye</u>	<u>9-9-2009</u>	<u>300+</u>			<input type="checkbox"/>
					<input type="checkbox"/>
					<input type="checkbox"/>

IMPORTANT: Provide all supporting documentation that this water body is important for the spawning, rearing or migration of anadromous fish, including: number of fish and life stages observed; sampling methods, sampling duration and area sampled; copies of field notes; etc. Attach a copy of a map showing location of mouth and observed upper extent of each species, as well as other information such as: specific stream reaches observed as spawning or rearing habitat; locations, types, and heights of any barriers; etc.

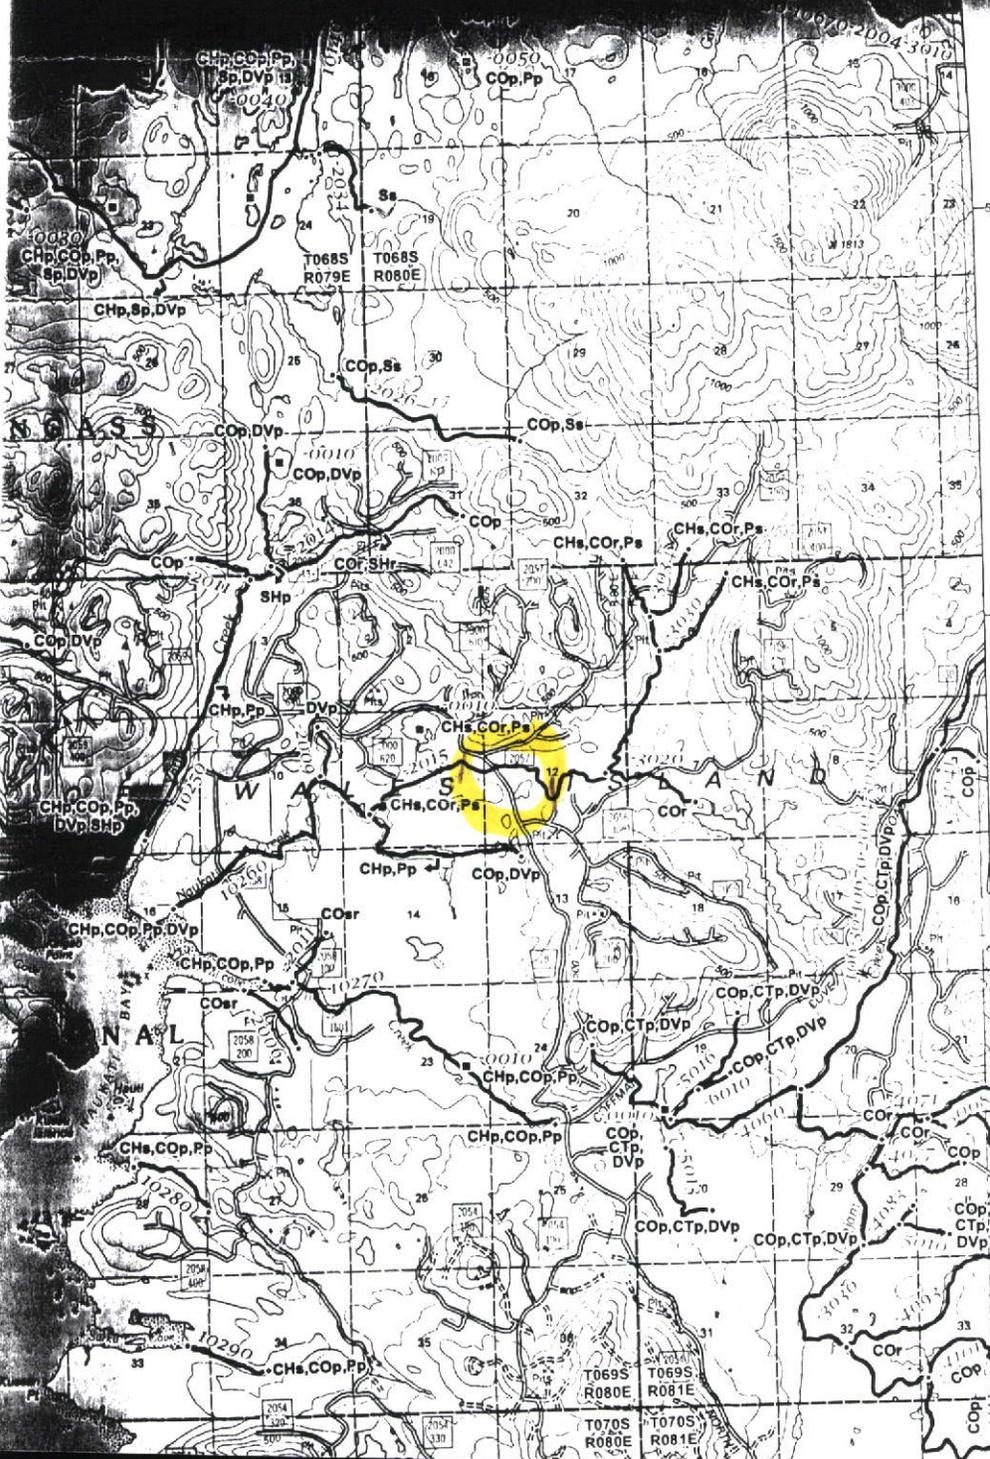

Comments: Over 300 Adult Sockeye were observed spawning during a foot survey conducted on 9/9/2009. Spawning habitat likely extends much further up stream but lack of time precluded surveying further. At this time the important matter is to add this species to the catalog. And in the future the upper extent of spawning habitat can be determined.

Name of Observer (please print): Steven McCurdy
Signature: [Signature] Date: 9/11/09
Agency: ADFG
Address: PO Box 682
Craig AK 99925

This certifies that in my best professional judgment and belief the above information is evidence that this waterbody should be included in or deleted from the Anadromous Waters Catalog.

Signature of Area Biologist: [Signature] Date: 9/11/09 Revision 02/08

Add sockeye salmon present/spawning to
103-90-10260 & 103-90-10260-2015
