		AWC Project Biologist	Date
Revision Code:	<u>D-3</u>		<u>11/27/09</u>
		Cartographer	Date

OBSERVATION INFORMATION

Species	Date(s) Observed	Spawning	Rearing	Present	Anadromous

**IMPORTANT:** Provide all supporting documentation that this water body is important for the spawning, rearing or migration of anadromous fish, including: number of fish and life stages observed; sampling methods, sampling duration and area sampled; copies of field notes; etc. Attach a copy of a map showing location of mouth and observed upper extent of each species, as well as other information such as: specific stream reaches observed as spawning or rearing habitat; locations, types, and heights of any barriers; etc.

**Comments:**

This stream is incorrectly named the "Takhin River". The actual Takhin River (USGS-named) is Stream No. 115-32-10250-2023, a tributary located on the opposite (west) side of the Chilkat River. Stream 115-32-10300 does not have a local name; please remove the current local name "Takhin River" from the Catalog listing.

Remove \* Takhin R. From DB For  
115-32-10300

Name of Observer (please print): Kate Kanouse
