For Office Use

Nomination #	<u>09-1086</u>	<u>[Signature]</u>	<u>10/30/09</u>
		Fisheries Scientist	Date
Revision Year:	<u>2010</u>	<u>[Signature]</u>	<u>10/30/09</u>
		Habitat Operations Manager	Date
Revision to:	Atlas _____ Both <u>X</u>	<u>[Signature]</u>	<u>6 OCTOBER</u>
		AWC Project Biologist	Date
Revision Code:	<u>C-9, C7</u>	<u>[Signature]</u>	<u>12/1/09</u>
		Cartographer	Date

OBSERVATION INFORMATION

Species	Date(s) Observed	Spawning	Rearing	Present	Anadromous
coho salmon	09/23/2009		✓		✓
cutthroat trout	09/23/2009		✓		
Dolly Varden	09/23/2009		✓		

IMPORTANT: Provide all supporting documentation that this water body is important for the spawning, rearing or migration of anadromous fish, including: number of fish and life stages observed; sampling methods, sampling duration and area sampled; copies of field notes; etc. Attach a copy of a map showing location of mouth and observed upper extent of each species, as well as other information such as: specific stream reaches observed as spawning or rearing habitat; locations, types, and heights of any barriers; etc.

Comments: Red line hydrography as indicated from a train survey
AWC mapping of the upper reach of this stream is incorrect, which appears to be shifted approximately 200' north and misaligned. On September 23, 2009, Tim Shields of the Takshanuk Watershed Council set four traps in the upper reach, in the east ditch along Wellfield Road. The four traps captured 6 cutthroat, 6 Dolly Varden and 11 coho, each less than 90mm fork length. Please correct the upper reach mapping for this stream as shown on the attached document (the light blue line illustrates the ditch stream course). We did not walk the lower reach of the stream to verify the current mapped stream course, or verify if anadromous fish use the stream upstream of the Haines Highway. I will submit a second nomination to include the uncataloged tributary as shown in red on the attached document.

Name of Observer (please print): Kate Kanouse
Signature: _____ Date: 09/28/2009
Agency: ADFG - HAB
Address: ADF&G Habitat ADF&G Habitat
Juneau, AK 99811

This certifies that in my best professional judgment and belief the above information is evidence that this waterbody should be included in or deleted from the Anadromous Waters Catalog.

Signature of Area Biologist: _____ Date: _____ Revision 02/08
