Habitat Biologist Katie Eaton and I conducted two site visits on 9-21-09 and 9-29-09 to the Strawberry Creek area (Stream # 111-50-10070-2004-3002). The purpose of our initial visit was to correctly map Stream # 111-50-10070-2004-3002-4017 (nomination 09-1070). While onsite, we observed an additional tributary off of Stream # 111-50-10070-2004-3002-4017 that is not cataloged. We tracked the stream from the confluence on foot and placed three traps in the stream. The location of trap # 1 is in a very "marshy" area and the channel is not defined. Between trap #1 and trap # 3, the channel is very well defined. We trapped a total of 27 coho ranging in size from 60-80 mm.
