1 coho salmon

Additional Comments: This nomination provides information supporting the addition of COr as well as backup for Pp and CHp in AWC stream # 103-25-10420. The information used to generate this nomination was provided to the Alaska Department of Fish and Game as a stipulation of fish resource permit # SF2008-088. Based on their proximity to the ocean, I would also consider the addition of CTr to the AWC in this stream.
