Nomination # <u>11-456</u>	_____	_____
Revision Year: <u>2012</u>	Fisheries Scientist	Date
Revision to: Atlas _____ Catalog _____	Habitat Operations Manager	Date
Both _____	<u>gg</u>	<u>10/13/11</u>
Revision Code: <u>F-1</u>	AWC Project Biologist	Date
	Cartographer	Date

OBSERVATION INFORMATION

Species	Date(s) Observed	Spawning	Rearing	Present	Anadromous
Coho Salmon	7/9/2011		Yes; Count = 1		Yes

**IMPORTANT:** Provide all supporting documentation that this water body is important for the spawning, rearing or migration of anadromous fish, including: number of fish and life stages observed; sampling methods, sampling duration and area sampled; copies of field notes; etc. Attach a copy of a map showing location of mouth and observed upper extent of each species, as well as other information such as: specific stream reaches observed as spawning or rearing habitat; locations, types, and heights of any barriers; etc.

**Comments:** All fish captures were associated with an AKSSF funded research project (AWC Catalog Inventories in SEAK), which included stream habitat inventory, stream mapping, and identifying fish distribution patterns for updating the AWC and corporate hydrography databases. Fish capture methods employed baited and sterilized Gee Minnow Traps Minnow traps soaked for 1-6 hours or hand dip nets. In this case electrofishing was used. All fish captured were identified to species and life stage noted, and released near the point of capture alive. Attachment pages/maps (see below) provide additional specific information regarding the presence of fish species, locations (latitude & longitude coordinates), number & species captured, and additional info.

Name of Observer (please print): Kathy Smikrud

Date 10/3/11 Revision \_\_\_\_\_

103-90-10260-2015

**Lower Extent**  
 Latitude: 55.90114  
 Longitude: -133.06848  
 No sampling for lower pt,  
 but stream flows into trib  
 catalogued for rearing coho  
 salmon. The confluence of  
 the two tribs don't align in the new  
 imagery and could be re-routed  
 based on the newer ortho imagery

103-90-10260-2015-3020

**Upper Extent**  
 Latitude: 55.89292  
 Longitude: -133.07104  
 1 juvenile coho salmon,  
 caught by E-fishing

**Naukati Watershed (Prince of Wales Island)**  
**Nomination # 103-90-10260-2015-3020-XXX1**  
**--All coordinate information provided**  
**in Datum NAD83**
