unique Anadromy

IMPORTANT: Provide all supporting documentation that this water body is important for the spawning, rearing or migration of anadromous fish, including: number of fish and life stages observed; sampling methods, sampling duration and area sampled; copies of field notes; etc. Attach a copy of a map showing location of mouth and observed upper extent of each species, as well as other information such as: specific stream reaches observed as spawning or rearing habitat; locations, types, and heights of any barriers; etc.

Comments: Sampled with 2 minnow traps and hook-and-line gear and captured many CT between 100-260mm (TL) and 7 DV. This location was downstream of a bridge along FR 63145 at MP 4.643 (RCS) and terminated just upstream of a small boggy lake (upper Koonani).
~ Latitude: 56.722° ~ Longitude: -133.495. (See attached map)

Name of Observer (please print): Doug Fleming
 Signature: [Signature] Date: 9/28/2012
 Agency: AK Dept of Fish and Game
 Address: 16 Sirig Lee Alley, Petersburg, AK 99833-0667

This certifies that in my best professional judgment and belief the above information is evidence that this waterbody should be included in or deleted from the Anadromous Waters Catalog.
