Additional Comments: This nomination provides backup anadromous waters information for AWC Stream #115-32-10250-2064, an unnamed tributary to the Chilkat River. Information gathered as part of ADF&G's Fish Passage Program supports the stream being listed as Coho rearing (CO_r). Effort included one minnow trap being placed about 100 feet upstream where the stream becomes very steep and turns from running along highway and one trap about 100 feet downstream in channel from culvert.
