106-44-10130 Route Correction

*Stream:*106-44-10130

Watershed: Frontal Wrangell Narrows

USGS Quadrangle: Petersburg C-3

MTRS: C060S080E

Date Surveyed: June 16, 2013

Findings: This stream has different upper and lower extents, as well as following a different route than illustrated in the catalog. We walked the road system and found no streams between the cataloged one and the newly digitized route. This led me to believe that this new route is the correct one and should be reflected as such.

Recommendations: Correct the route, location, and upper and lower limits to this stream in the AWC.
