Observation Information

Life History:

Species\LifeStage: threespine stickleback

Species\LifeStage: coho salmon juvenile

Sampling Method (No. of fish): A (34) B (42)

Sampling Method (No. of fish): A (2)

Key to Sample Method

Sample ID: (A) Sample Gear: Minnow Trap

Sample ID: (B) Sample Gear: Minnow Trap

ALASKA DEPT. OF
FISH & GAME
JUN 5 2014

Additional Comments: This nomination provides back up information supporting species informaion COr for AWC Stream #101-47-10320, Stensland Creek. This information was collected as part of ADF&G's Fish Passage project. Traps were set above and below culvert. Two juvenile coho salmon were captured in the upstream trap, along with numerous 3 spine sticklebacks. Trap A was set about 30 feet upstream of culvert inlet and Trap B was set about 5 feet downstream from culvert outlet. Nice E Type channel upstream and downstream of culvert. Fish observed upstream and downstream of culvert. Water surface looks flat for about 200 feet downstream and over 150 feet upstream of culvert. There is a lot of silt deposition at outlet.

Name of Observer: Mark Eisenman, Habitat Biologist

Phone: (907) 267-2891

Date Printed: 6/3/2014

Signature: _____

Address: Alaska Department of Fish and Game, Sport Fish - Anchorage
333 Raspberry Rd
