108-40-10500-2003-3004 TRIBUTARY 2**ADDITION****Water body name:****Survey date:** 7/29/2013**Water body number:****Species & Lifestage:****Watershed:** Ohmer Creek-Frontal Sumner Strait**MTR:** C061S081E **Quad:** Petersburg C-3

Findings: We surveyed this tributary to stream 108-40-10500-2003-3004 and caught coho salmon, Dolly Varden char and cutthroat trout using an electrofishing unit (Table 1). The mouth of the stream connects with 108-40-2003-3004 in marshy area and culvert has an outlet apron (Figure 1). We ended the survey at a 15' waterfall that is a fish barrier (Figure 2).

Recommendations: Add stream to AWC.

Table 1.—108-40-10500-2003-3004 tributary 2 survey data.

Waypoint	Latitude	Longitude	Notes	Sample Effort	Sample Results
