**191-20-13800 TRIBUTARY 4****Addition****Water body name:****Survey date:** 6/8/2014**Water body number:****Species & Lifestage:****Watershed:** White River-Frontal Gulf of Alaska**MTR:** C022S022E **Quad:** Icy Bay D-2

**Findings:** We surveyed a tributary to stream 191-20-13800 using a handnet and GPS and captured rearing coho salmon. As we headed up stream the water level decreased becoming disconnected pools and then a dry stream channel. Water does not appear to flow in upper part of stream channel regularly. We ended the survey in dry moss covered stream channel.

**Recommendations:** Add stream to AWC.
