191-20-13800 TRIBUTARY 6**ADDITION****Water body name:****Survey date:** 6/9/2014**Water body number:****Species & Lifestage:****Watershed:** White River-Frontal Gulf of Alaska**MTR:** C022S022E **Quad:** Icy Bay D-2

Findings: We surveyed a tributary to stream 191-20-13800 using a GPS and handnet. We were able to capture rearing coho salmon with no effort. The stream flows along the hillside that logging road is on. The water in the stream is from when the beaver pond is overflowing.

Recommendations: Add stream to AWC and rearing coho salmon.
