ADDITION

Water body name:

Survey date: 7/9/2014

Water body number:

Species & Lifestage:

Watershed: White River-Frontal Gulf of Alaska

MTR: C022S022E **Quad:** Icy Bay D-2

Findings: We surveyed a tributary to stream 186-15-10550-2005-3040 using a GPS and handnet. We were able to catch rearing coho salmon. This is a beautiful tributary with clear water. There were very few fish within the stream and at the headwater there is a 3 foot falls in the middle of a meadow.

Recommendations: Add stream to AWC and add rearing coho.
