OBSERVATION INFORMATION

Species	Date(s) Observed	Spawning	Rearing	Present	Anadromous

**IMPORTANT:** Provide all supporting documentation that this water body is important for the spawning, rearing or migration of anadromous fish, including: number of fish and life stages observed; sampling methods, sampling duration and area sampled; copies of field notes; etc. Attach a copy of a map showing location of mouth and observed upper extent of each species, as well as other information such as: specific stream reaches observed as spawning or rearing habitat; locations, types, and heights of any barriers; etc.

Comments:

Using the 2011 catalog as a reference, please re-list this stream to reflect accurate location and sinuosity. Maintain species currently cataloged.

**ROUTE CORRECTION**

**Water body name:** [Click here to enter text.](#)

**Survey date:** 5/29/2014

**Water body number:** 115-32-10250-2016

**Species & Lifestage:** COr

**Watershed:** Chilkat Inlet-Frontal Lynn Canal

**MTR:** C030S058E **Quad:** Skagway B-2

**Findings:** Back in 2011, this stream was cataloged as 115-32-10250-2016. In a nominating error on my part, it was deleted and its number was assigned to the stream just up the highway. This little stream spills into the Chilkat and terminates at the highway.

**Recommendations:** Please re-list this stream and assign it #115-32-10250-2016 to reflect what should have been a route correction back in 2011.
