Additional Comments: This information was collected as part of ADF&G's Fish Passage Assessment project. This nomination supports the addition of both Dolly Varden and Cutthroat Trout present in AWC Stream #108-40-10278 and extending the Anadromous reach up to at least the road crossing. Upstream has been channelized and confined with a trailer park on one side and a house on the other. Some erosion at inlet, cement blocks exposed. Two old culverts lying in stream and on bank downstream.
