Key To Sample Events

Sample ID: (A) Sample Gear: Minnow Trap
Sample ID: (B) Sample Gear: Minnow Trap

*coho salmon you previously documented
DV Anadromy unknown*

Additional Comments: This information was collected as part of the ADF&G Fish Passage Project. This nomination supports an addition for presence of dolly varden char and a backup for coho salmon for AWC stream (103-60-10590-2002) on Prince of Wales Island. Appears to have been constructed without enough fine sediments, water flows subsurface in last 10' to the outlet. Not currently passing fish. Up and downstream from culvert have both been clear-cut, so no widths taken but no apparent constriction issues. Substrate gradient is 1.02 inside the culvert.
