Observation Information

Life History: Anadromous

Species/LifeStage: coho salmon juvenile

Sampling Method (No. of fish): B (1)

Life History: Unknown

Species/LifeStage: Dolly Varden juvenile

Sampling Method (No. of fish): A (2)

Key To Sample Events

Sample ID: (A) Sample Gear: Minnow Trap

Sample ID: (B) Sample Gear: Minnow Trap

*coho salmon juv. previously documented*

**Additional Comments:** This information was collected as part of ADF&G's Fish Passage Assessment Project. This nomination supports backup information for AWC Stream #106-44-10110 for the presence and rearing of juvenile coho salmon. This nomination also supports the addition of dolly varden present and rearing for this stream. Nice spawning gravels downstream with beautiful riffles. Juvenile salmonids observed upstream and downstream of culvert. Small tributary about 160 feet upstream. Nice habitat upstream with lots of woody debris, undercut banks, and plunge pools.
