IMPORTANT: Provide all supporting documentation that this water body is important for the spawning, rearing or migration of anadromous fish, including: number of fish and life stages observed; sampling methods, sampling duration and area sampled; copies of field notes; etc. Attach a copy of a map showing location of mouth and observed upper extent of each species, as well as other information such as: specific stream reaches observed as spawning or rearing habitat; locations, types, and heights of any barriers; etc.

Comments: update hydro for old numbers 113-41-10150-2013-3002-4011
 The stream arc for this stream is incorrect in the anadromous waters catalog. This stream was a tributary to 113-41-10150-2007 which was lost in the catalog when it was updated. This stream is currently in the catalog as 113-41-10150-2013-3002. Recommend that stream arc corrected and stream be re-numbered.
