OBSERVATION INFORMATION

Species	Date(s) Observed	Spawning	Rearing	Present	Anadromous
Dolly Varden	01/23/2015			✓	

IMPORTANT: Provide all supporting documentation that this water body is important for the spawning, rearing or migration of anadromous fish, including: number of fish and life stages observed; sampling methods, sampling duration and area sampled; copies of field notes; etc. Attach a copy of a map showing location of mouth and observed upper extent of each species, as well as other information such as: specific stream reaches observed as spawning or rearing habitat; locations, types, and heights of any barriers; etc.

Comments:
This stream should be removed from the catalog. Have sampled stream several times and have only captured resident fish. Anadromous fish would have hard time making it to this stream.
Coordinates (Lat,Long): Upper(58.3608,-134.5674) Lower(58.3612,-134.569)
Remove stream 111-50-10620-2006- & 2006-3005 FW AUC
originally added to AUC in 1987, recent sampling found no evidence of coho salmon

Name of Observer (please print): Richard Hoffman sampled 2 times
Signature: 10.7.168.74 (Web Nomination) Date: 02/23/2015
Agency: _____
Address: P.O. Box 110024
Juneau, AK 99811-0024

This certifies that in my best professional judgment and belief the above information is evidence that this waterbody should be included in or deleted from the Anadromous Waters Catalog.
Signature of Area Biologist: _____ Date: _____ Revision 11/14
Name of Area Biologist (please print): _____
