OBSERVATION INFORMATION

Species	Date(s) Observed	Spawning	Rearing	Present	Anadromous

**IMPORTANT:** Provide all supporting documentation that this water body is important for the spawning, rearing or migration of anadromous fish, including: number of fish and life stages observed; sampling methods, sampling duration and area sampled; copies of field notes; etc. Attach a copy of a map showing location of mouth and observed upper extent of each species, as well as other information such as: specific stream reaches observed as spawning or rearing habitat; locations, types, and heights of any barriers; etc.

Comments:

According to the AWC stream # 106-44-10240-2021 name is West Fork Ohmer Creek. There is already a West Fork Ohmer Creek in the Ohmer Creek drainage. Also, we surveyed this area and we could not find W.F. Ohmer Creek. We found a creek taking a different route which appears to be the upper extent of the Blind River.

*Remove name from dB 20 numbers 106-44-10240-304/  
 20F now # 13-572, 120F now # 13-567*

**To:** Legere, Nicole M (DFG)  
**Subject:** RE: West Fork Ohmer Ck. PSG name change

That's odd  
I see dB entry to remove name  
Why that was not accomplished is unknown  
I'll generate a dB correction nom to take of that right now.  
thx

**Subject:** West Fork Ohmer Ck. PSG name change

Hi J,

There are two creeks named West Fork Ohmer Creek in Petersburg, 108-40-10500-2103 and 106-44-10240-2041. In 2013, I submitted a nomination (13-568) to remove the name from stream 106-44-10240-2041 because it's not in the Ohmer Creek drainage. This change never occurred. Is there something you can do to change it?

Thanks,

Nicole
