SUBJECT: Anadromous revisions

Enclosed is the third in a never ending succession of Anadromous Waters updates. This is the second in the Hoonah area and I am planning on hauling the catalogue up to Hoonah with me in the near future to run by Doug Perkins, the local U.S. Forest Service fisheries biologist. Apparently, the U.S. Forest Service regional guy lacked some knowledge of streams and systems in that part of the world.

Please advise as to how and when the revisions will be entered.

Thanks.
