Subject: One more addition to Stream Catalog

Is it too late to suggest one more addition?

This stream is on native land north of Kake. It also falls right into an area where there is 1"-250,000 quads mapped. I guess it fell through the cracks on our earlier review.

I'm sorry for this late submission.

Please call if you have questions (907-772-3801)

Thanks.
