Name of Waterbody (if known): _____

Location:

Anadromous Waters Catalog Volume and Number SoE. Alaska 107-10-29
107-10-30

USGS 1:63,360 Quadrangle Craig C-1

or 1:250,000 (if 1:63,360 not available) _____

Species	Date(s) Observed	Stage(s) (Spawning, Rearing, Migration)
	6/23/84	
	6/19/84 6/22/84	

Comments: Please provide any clarifying information. Also, please include a map of the area identifying the stream reach. This can be a copy of the map from the Anadromous Waters Atlas.

107-10-29 is a much longer system than shown on the U.S.G.S. maps. The stream is over 2 miles long.

~~Several tributaries are mapped out to 107-10-30 also that have anadromous utilization.~~ add Tributary # 107 - 10 - 10300 - 2009
