<u>Richard Reed</u> Regional Supervisor	<u>12/1/84</u> Date
<u>[Signature]</u>	<u>10/21/84</u>
<u>[Signature]</u> Drafted	<u>10/84</u>

Species	Date(s) Observed	Spawning	Rearing	Migration
coho	9/27/84			

Comments: Provide any clarifying information, including number of fish observed, Location of fish survey data, etc.

Two tributaries enter southside of lake, passing through heavily vegetated area between highway and lake. One tributary was too turbid ~~short~~ to survey; young coho were in the shorter of the two streams. This is the stream nearest the pullout for the airplane parking.

Attach a copy of a map showing location of mouth and upper points of each species, specific stream reaches identified for spawning or rearing, locations of barriers, such as falls. Attach a copy of the fish survey data, if available.
