Comments: Provide any clarifying information, including number of fish observed, location of fish survey data, etc.

Traps were placed in creek which meanders along roadway to Lloyd Prooty's house. Traps <sup>which caught</sup> had fish were in creek to just above drainage ditch. Drainage ditch has silty cloud. (trip with Debbie Clausen and Dave Gimmona)

Attach a copy of a map showing location of mouth and upper points of each species, specific stream reaches identified for spawning or rearing, locations of barriers, such as falls. Attach a copy of the fish survey data, if available.
