LIST OF SPECIES OBSERVED (include any anadromous fish)

SPECIES	DATE(s) OBSERVED	APPROXIMATE NUMBERS	LIFE STAGE(s) (egg, fry, smolt, adult)
coho	8/12 + 8/14, 15, 16/85	several hundred	fry plus rearing fish
steelhead	8/12 + 8/14, 15, 16/85	several hundred	fry plus rearing fish
Chum salmon	8/15 + 8/16/85	700	adult

Comments/Diagrams (Please indicate where in the stream fish were observed, e.g., "10 miles above Delta Junction," "3 river miles south of confluence of Yukon and Porcupine Rivers," etc. Provide additional clarifying information such as "provides limited spawning area," "excellent rearing area," etc. Please use the back of this form if more space is required).

The anadromous reach of the stream needs correcting. Rearing coho and steelhead were captured in minnow traps up to the complete barriers marked. Several incomplete barriers limit Pink and chum salmon passage as noted. Additions, deletions and barriers are highlighted on the corrected map. Excellent rearing and spawn area available on added North Fork.

NAME OF OBSERVER (print) Craig Burns SIGNATURE Craig A. Burns

DUTY STATION Petersburg

Don Lowell Reed Rec'd 9/25/85

NOTE: Anyone submitting this form may be required to testify at a public hearing at a future date regarding these observations.

SEND ORIGINAL TO: Chief, Habitat Protection Section, Subport Building, Juneau. Also, send one copy to the local Regional Habitat Protection Supervisor.
